

Tesco UK Stores Ltd – first tier food and grocery non-food sites

At Tesco we work in partnership with thousands of direct or ‘first tier’ suppliers who are located in the UK and around the world.

Transparency across these supply chains plays a key part in our human rights strategy and allows us to continually improve the way we source our products. It is vital to helping us manage risk in our supply chains, share learnings and enable collaborations for greater impact and mitigation.

In January 2022, we published a full list of first tier food and grocery non-food suppliers, including overall supplier names, addresses, countries of origins and workforce numbers. This list included own brand suppliers across a number of product categories, including meat and poultry, fruit and vegetables, bakery products, dairy, coffee and tea, confectionery, household, petcare, health & beauty, and wellness. The below list has been updated as of April 2023 and will be updated again in 2024, in line with our continued commitment to transparency in the supply chain.
