

F&F & Home Factories

At Tesco F&F we work in partnership with large number of manufacturers around the world. Transparency across these supply chains plays a key part in our Home and Clothing strategy and allows us to continually improve the way we source our products.

It is vital to helping us manage risk in our supply chains, share learnings and enable collaborations for greater impact and mitigation. In recognition of the important role transparency has to play in clothing supply chains we published a list of direct suppliers for our F&F clothing range in 2017. In 2018 we disclosed our Tier 2 wet processing units and - our Tier 4 man-made cellulosic fibre producers. We regularly update this list and from September 2022 we have included our Tier 1 and 2 suppliers for Home textiles. In November 2025, we have included restof Home Tier 1 factories.

Tier 1 Factory List:

Refers to a final or finished product manufacturing and assembling business entity that makes a final or finished product. The list covers all active Tier 1 Home and Clothing factories as of end August 2025.

Tier 2 & 3 Mill List:

Refers to factories which provide textile materials in fabric state to higher tier manufacturers to be used in the production without supplying final product direct. These include different material manufacturing processes.

The Tier 2 wet processors list represents about 82% of our production capacity by weight which we source for F&F Clothing and Home Textile products during 2024 September to 2025 August. For Tier 2 knitting and weaving and Tier 3 spinning, it represents about 64% and 30% respectively. Only processes which we have used in our production are indicated.
